### **Blackdog Resources Ltd. Updates Production from Leduc D3 Light Oil Well**

Blackdog Resources Ltd. ("Blackdog" or "The Company") (TSXV:DOG) is pleased to announce production results from the first 6 days of its Leduc D3 light oil well ("the Leduc well") near Sylvan Lake, Alberta. During the period from November 7- 12, 2011 the Leduc well free flowed without the aid of any artificial lift a gross average of approximately 330 barrels of oil equivalent per day ("boepd"). This total was comprised of approximately 67 barrels of light oil ("bopd"), 1000 mcf of natural gas and 100 barrels of natural gas liquids. The Company has a 15% Working Interest ("W.I.") in the Leduc well and entire section of land the Leduc well is situated on. The net production to Blackdog during this period was approximately 50 boepd.

The Company intends to provide additional production updates on the well over time and also anticipates at some stage that an artificial lift process will be put in place to further aid in delivering solid long term production numbers from this well.

Blackdog Resources Ltd is a junior oil and gas company focused on the exploration and development of light oil properties in Southeast Saskatchewan and Alberta. The Company currently has 24,578,316 Common Shares Outstanding.
