

Blackdog Commences Production From Harmattan Well

CALGARY, ALBERTA--(CCNMatthews - June 14, 2007) -

Blackdog Resources Ltd. (TSX VENTURE:DOG) is pleased to announce that commercial production at its Harmattan 6-22 natural gas well began on June 2, 2007. Flow rates have not yet sufficiently stabilized to provide an accurate forecast of daily production rates. Blackdog has earned a 15% Working Interest in the well and the surrounding Area of Mutual Interest.

Blackdog expects to commence production from its Breton 3-29 and Crystal 2-6 natural gas wells within the next 30-60 days notwithstanding any further weather related delays. Blackdog has earned a 15% Working Interest in both of these wells and their respective surrounding Areas of Mutual Interest.

Forward Looking Statement - This news release contains statement about future events that are forward looking in nature, and, as a result, are subject to certain risks and uncertainties such as changes in plans or the occurrence of unexpected events. Actual results may differ from the estimates provided by management.
